

The Next Gen Way to Win

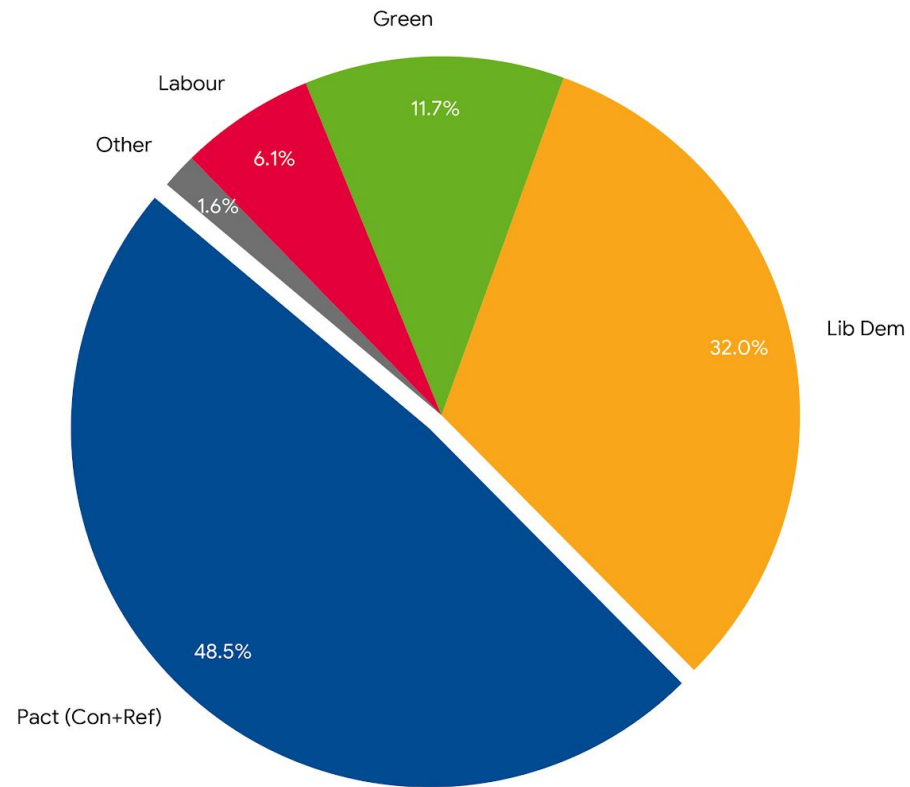

Agentic Campaign Management

Win Farnham & Bordon with
44% of the vote at the next
General Election

Reform UK achieved a **27% National Equivalent Vote (NEV)** share in the May 2026 local elections - nearly double the **14.3%** they achieved in the 2024 General Election. This growth represents a **12.7 percentage point increase** in support in just two years, making them the largest party by vote share in this cycle.

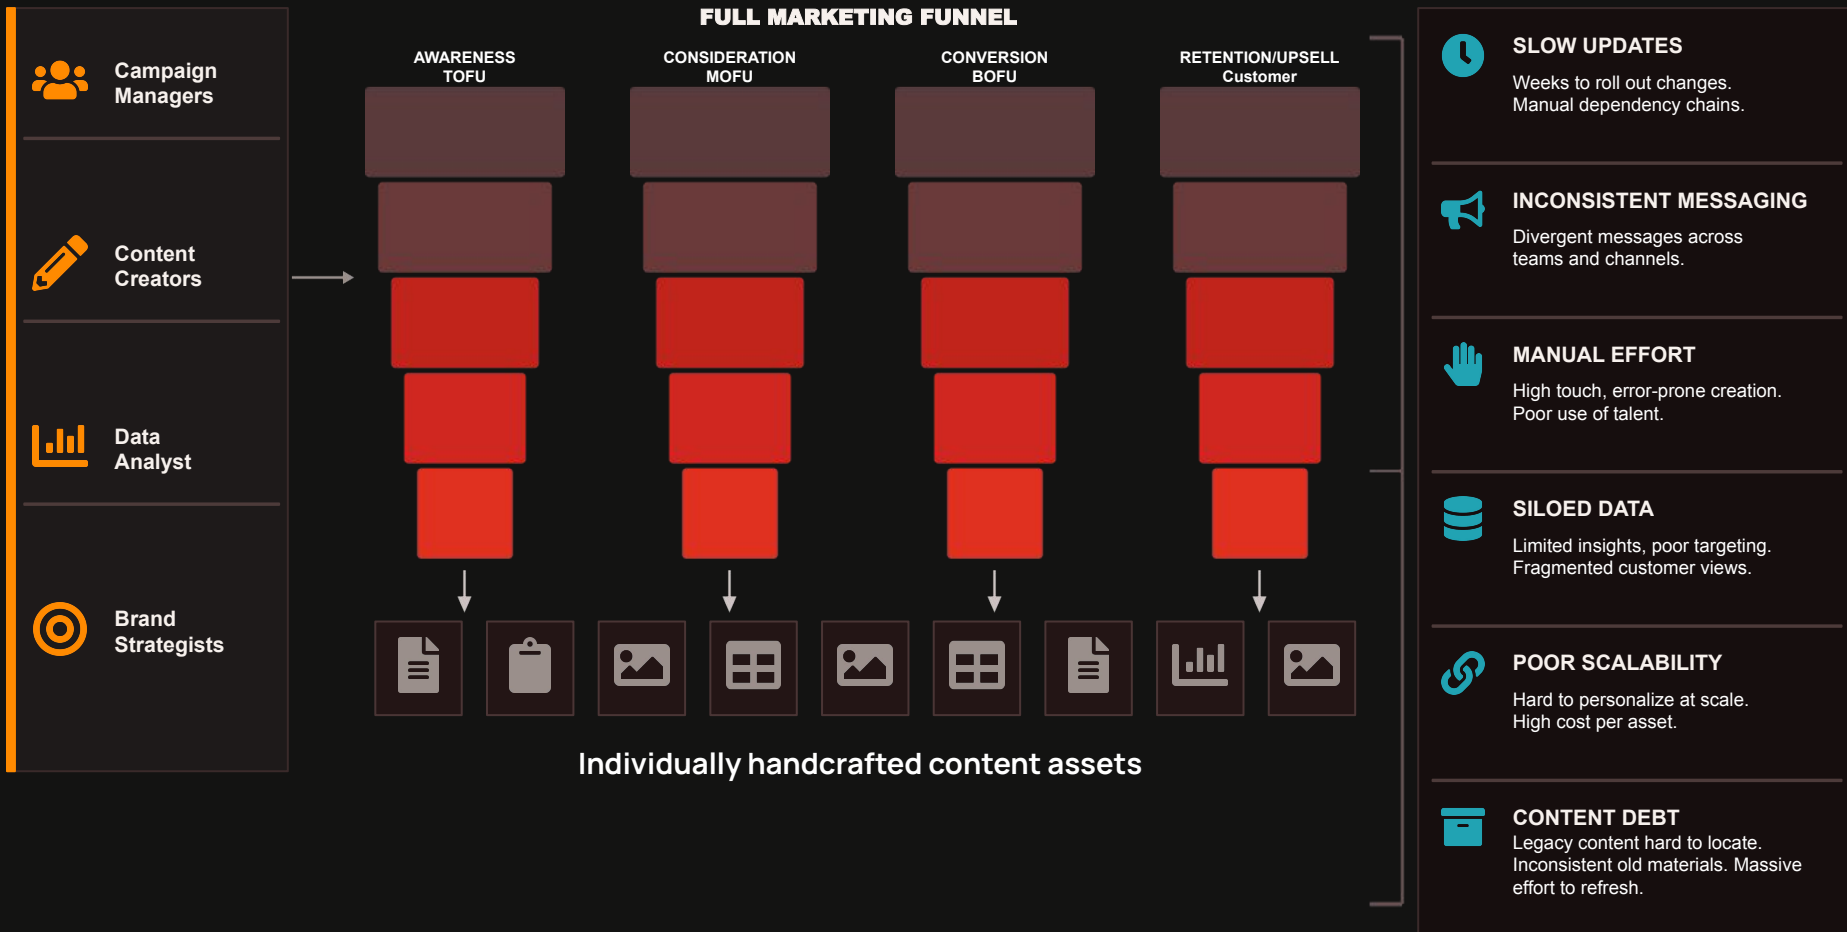

As of May 2026, a single donor, Christopher Harborne, has donated a total of over £22 million to the party, accounting for approximately two-thirds of all funding Reform UK has ever received.

Projected General Election Result: Farnham and Bordon
(Weighted by Population with Right-Wing Pact)

- **Overcoming the "Pact" Majority:** The core of this strategy is the 11.5% growth for the Liberal Democrats. This is achieved by using AI agents to "harvest" voters from the Green and Labour pools, and by peeling away "Soft Conservative" voters in Farnham and Haslemere who are alienated by a formal alliance with Reform UK.
- **Execution Efficiency:** While Reform UK leverages its **£22 million** funding for broad media and digital air cover, the Agentic Motion uses precision targeting to ensure the Lib Dems "own" the local conversation in critical swing wards like **Liss** and **Liphook**.
- **Closing the Bordon Gap:** The Agents' ability to maintain a persistent presence in Bordon—addressing every new resident as they move in—prevents the Right-Wing Pact from securing an "uncontested" stronghold in the Hampshire development zones.
